

Support foundational and early literacy skills with customizable, easy-to-use, all-digital ePocket Charts.

Benchmark ePocket Charts are a digital version of a time-tested classroom tool.

Great for instruction and practice in the following:

- Phonological Awareness
- Phoneme Categorization
- Blending
- High-Frequency Word Instruction
- Word Sorting

Use in whole-group or small-group instruction, and for independent practice.

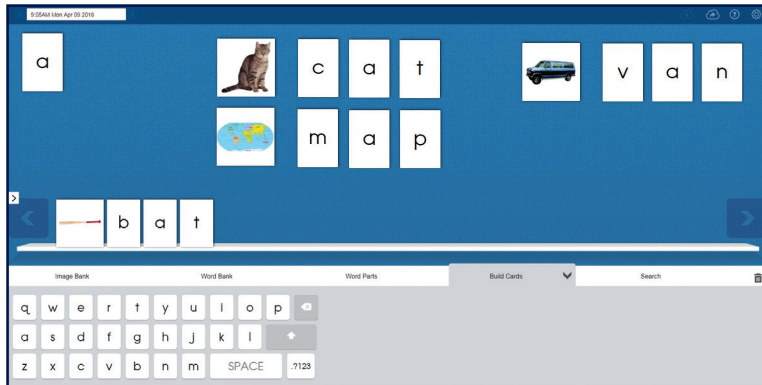

FEATURES	BENEFITS
The manipulatives in the program are easy to access in a fully digital environment and can be used with any core or supplemental solution.	Saves prep time and eliminates the hassle of creating conventional cards.
Choose from three work views: Elkonin Boxes, Pocket Charts, and Free Workspace.	Flexibility to create the perfect activities for classroom instruction, meeting the needs of diverse learners.
Build your own text cards and create, revise, copy, delete, and reorder ePocket Chart activities.	Personalize lessons for maximum impact.
Personalize and customize/create student assignments.	Drive instruction toward any area of need. Allows students to work independently.
Simple and intuitive controls work well on interactive whiteboards and tablets.	Makes classroom instruction easier and more engaging for younger students.

Preloaded Card Sets Get You Off to a Great Start

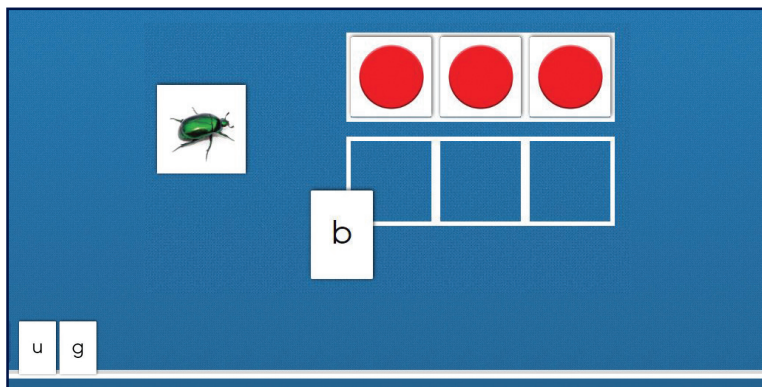

Our ePocket Chart comes loaded with an extensive bank of image cards, high-frequency word cards, and word parts so that you can begin using it right away. You can also build your own cards to customize instruction.

Three Work Views to Choose From

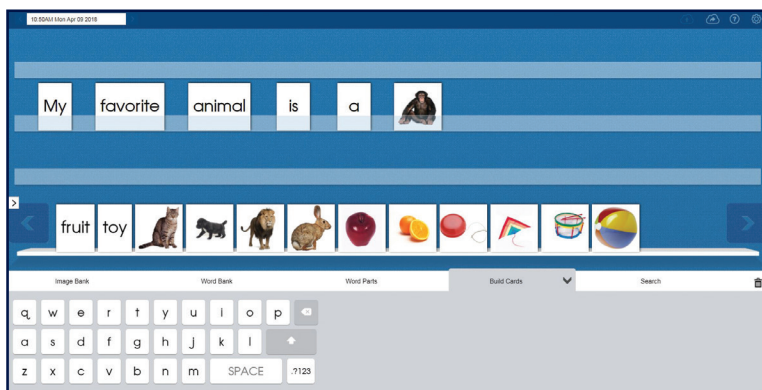

Free Workspace

Great for word sorts, word building, blending, and much more!

Elkonin Boxes

Great for supporting phonological and phonemic awareness using phoneme categorization and segmentation.

Pocket Chart

Great for word building, sentence construction, sequencing, and building word banks.

**Works on
ChromeBooks,
iPads, and
Interactive
Whiteboards**
